Art Unit: 3635

1. This Office action is in response to the amendment filed 09/10/02. Claims 1-12, 14-16 and 18-49 are pending.
2. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. A recitation that the claims contain too many unnecessary limitations is not acceptable. See 37 CFR 1.175(a)(1) and MPEP § 1414.
3. The reissue oath/declaration filed with this application is defective because it fails to contain a statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP § 1414.
4. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: it fails to clearly recite that the post office address is the same as the inventor's residence.
5. The supplemental reissue oath/declaration filed 09/10/02 application is defective because it fails to identify at least one **specific** error which is relied upon to support the reissue application.

Art Unit: 3635

See 37 CFR 1.175(a)(1) and MPEP § 1414. MPEP § 1414 Section II, recites that the oath or declaration must identify at least one specific error.

6. Claims 1-12, 14-16 and 18-49 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

7. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on 09/10/02 have been disapproved because they introduce new matter into the drawings. 37 CFR 1.121(a)(6) states that no amendment may introduce new matter into the disclosure of an application. The original disclosure does not support the showing of a concrete tank with the cover at a specific level relative to the tank top. The examiner has allowed entry of drawing changes not originally shown because they were showing what was known in the prior art schematically. The most recent change proposes detail not adequately supported.

8. New formal drawings are required in this application including the proposed changes of 05/19/2000. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the Patent and Trademark Office no longer prepares new drawings. The

Art Unit: 3635

corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Canfield whose telephone number is (703) 308-2482. The examiner can normally be reached on M-Th.
